

**Confirmation statement of the reception of electronic certificates
with certification but without activation of certificates**

For electronic certificates issued under the intermediate certificate of Auðkenni

By my signature here below I confirm having received a debit card with electronic certificates in the condition of *suspension*.

I furthermore confirm that I am aware of the following grounds for these certificates being handed over to me without activation:

- a. I understand that I have in my possession a debit card with electronic certificates which I declare that I shall preserve and take full responsibility for.
- b. I confirm that all information which I have supplied upon my certification is correct and that the public identification provided by me is authentic and was valid upon reception of the electronic certificates.
- c. I am aware that I can not use the electronic certificates until they have been activated by registration authorities.
- d. As the electronic certificates are the property of Auðkenni I agree that upon their expiration, for whatever reason (i.a. due to the certificates' expiry or revocation) it will not be possible to activate or make use of them.
- e. If I, as a responsible party for aforementioned certificates, have any reason to suspect that the electronic certificates have in any way been misused or that the safety of private keys connected to them or PKI-PIN could have been jeopardized during the validity of the certificates I will immediately request Auðkenni to revoke the electronic certificates.
- f. As I have had the debit card sent to me by registered mail I am aware that I must ensure the bank's reception of a copy of this statement at the earliest opportunity. Any failure to do so is my responsibility.
- g. I shall arrive as soon as possible to finish the activation procedure at the location of the registration authority.
